

Report on Geological Excursion of B.Sc. (Semester IV) 2024

The B.Sc. IInd (Semester IV) year geology fieldwork was organised from 4 April to 9th April 2024 to Jabalpur and adjoining areas under the supervision of **Prof. Sanjay Shukla, Mr Abhishek Shukla and Mr. Ankit Pandey**. Students studied the geological features at Chuii Hill (the Lameta Formation), Pat Baba Ridge (dinosaur's eggs, pieces of bones etc.), Madan Mahal granites (the Balancing Rock and spheroidal weathering), many types of basalt and inter trappean rocks at Gaumukh, Bargi Dam (Rani Avanti Bai Lodhi Sagar, Marble rocks, Dhuandhar Water fall Lameta and Bheda Ghats etc areas.

Students were able to identify various geological processes that occurred millions of years ago. They visited different spots to understand the geology of the area. Few images of the visit...
